- 17 ▶ SolarSmart Roof Alliance Formed
- 18 ▶ Frontrunners in Green Initiatives
- 38 ▶ Green Building Cost
- 39 ▶ Metal Roofs on Schools
- 39 ▶ Greening of the White House

Departments

- 2 ▶ President's Message
- 31 ▶ Construction & the Economy
- 39 ▶ Industry News
- 40 ▶ Calendar of Events
- 40 ▶ Advertisers' Index

RCI was chartered, in part, to bridge the gap between the seemingly disparate elements of the roofing profession. It is the intent of *Interface* to connect with these elements, educate and inform about roofing-related topics, establish a common ground for discussion, promote Institute programs, and branch out toward even more people. *Interface* is circulated monthly to over 3,000 people (nationwide and overseas) including RCI members, specifiers, facility managers, owners, industry contacts, and a growing number of highly placed professionals. *Interface* is frequently distributed at various trade shows, as well as educational and institutional functions. The articles contained in this publication are intended to provide information that may be useful to members of the Roof Consultants Institute. RCI does not necessarily endorse this information. The reader must evaluate the information in light of the unique circumstances of any particular situation and independently determine its applicability. Entire contents, © **RCI**.

About This Issue: This issue is a follow-up to our November 2001 issue dealing with matters of "green roofing." A great deal has happened since we first concentrated on that topic, and this issue will attempt to close the information gap.

About The Cover: Sarnafil's System 1000 green roof was installed on the Chicago City Hall. Photo © Mark Farina.
