Sponsorship Products 2018

Building Envelope Technology Symposia Sponsorships

Each year the RCI Building Envelope Technology Symposium draws over 350 building envelope design professionals to discuss and learn about new products and design considerations for maintaining, repairing, or construction of superior building exteriors.

As an event sponsor, your company demonstrates visible support for the association and its mission to provide education to the building envelope designer community. Sponsorships help RCI to offer an increasing number of educational programs and provide better learning experiences for those who attend.

Sponsorships give your company a competitive edge in the building envelope consulting community and draw attention to its support for better building exteriors through increased visibility of corporate branding on the RCI website, in event promotional emails, and through many at-event benefits.
